Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component units of the University of Arkansas, Fayetteville (University), an institution of higher education of the State of Arkansas, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the University of Arkansas Fayetteville Campus Foundation, Inc., the Razorback Foundation, Inc., and the Arkansas 4-H Foundation, Inc., which represent 100% of the assets and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the University of Arkansas Fayetteville Campus Foundation, Inc., the Razorback Foundation, Inc., and the Arkansas 4-H Foundation, Inc., is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the University of Arkansas Fayetteville Campus Foundation, Inc., the Razorback Foundation, Inc., and the Arkansas 4-H Foundation, Inc. were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of the University as of June 30, 2014, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 21 to the financial statements, the 2013 financial statements have been restated due to the adoption of Governmental Accounting Standards Board Statement no. 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Other Matters

Prior Year Comparative Information

We have previously audited the University's 2013 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the business-type activities and the aggregate discretely presented component units in our report dated November 12, 2013. In our opinion, the comparative information presented herein as of and for the year ended June 30, 2013, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and certain information pertaining to postemployment benefits other than pensions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT’S DISCUSSION AND ANALYSIS

Introduction

The following discussion and analysis provides an overview of the financial position of the University of Arkansas, Fayetteville (the University) for the year ended June 30, 2014, with fiscal year ended June 30, 2013 data presented for comparative purposes. The emphasis of the discussion concerning the financial statements will be for the current year. The University’s financial statements, notes to the financial statements and discussion and analysis are the responsibility of, and have been prepared by management. The discussion and analysis should be read in conjunction with financial statements and notes. All references to “2014”, “2013” or another year refer to the fiscal year ended June 30, unless otherwise noted.

The University is the largest and oldest state institution of higher education in Arkansas. Established in 1871 under the provisions of the Morrill Act, it is the state’s first land-grant institution and the flagship of the University of Arkansas System. The Carnegie Foundation for the Advancement of Teaching places the university among only 2 percent of universities in America that have the highest level of research. As the state’s only comprehensive research university, together with the distinction of a very high level of research, the University is positioned to be a partner, resource and catalyst for advancing higher learning and stimulating economic opportunity for Arkansas, our nation and our many public and private sector partners.

All programs and activities of the University are governed by the University of Arkansas Board of Trustees, which has delegated to the System President the administrative authority for all aspects of operations. The System President has further delegated administrative authority to the Chancellor and Vice President for Agriculture, who have responsibility for the programs and activities of the colleges, schools and divisions presented in this financial report.

Overview of the Financial Report and Financial Analysis

The University’s financial report includes three basic financial statements: the Statement of Net Position, which presents the assets, liabilities and net position of the university, and when applicable, deferred outflows of resources and deferred inflows of resources as of the fiscal year end; the Statement of Revenues, Expenses, and Changes in Net Position, which reflects revenues and expenses recognized during the fiscal year; and the Statement of Cash Flows, which provides information on the major sources and uses of cash during the fiscal year. These financial statements and related note disclosures are prepared in accordance with standards issued by the Governmental Accounting Standards Board (GASB) and present a comprehensive, entity-wide perspective. Financial statements are prepared under the accrual basis of accounting, whereby revenues and assets are recognized when services are provided and expenses and liabilities are recognized when others provide the services, regardless of when cash is exchanged. The report also includes other required supplementary information for other post-employment benefits.

Effective for the year ended June 30, 2013, the University adopted GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net*

Position, and effective for the year ended June 30, 2014, the University adopted GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. These standards introduce and define deferred outflows of resources and deferred inflows of resources as elements of the annual financial report and incorporate these elements into the computation of the University's net position (previously referred to as net assets). These elements represent consumption (deferred outflow) or acquisition (deferred inflow) of resources by the University that are applicable to a future reporting period, but do not require any further exchange of goods or services. For 2013, the University did not have any items to report as deferred outflows or deferred inflows of resources, thus the effect of the adoption of Statement 63 was to report net position rather than net assets. The adoption of Statement 65 in 2014 did result in the university reporting deferred outflows of resources. As prescribed by the statement, certain prior period amounts have been reclassified to conform with the current year's presentation.

The University has identified three legally separate foundations: the University of Arkansas Fayetteville Campus Foundation, Inc., the Razorback Foundation, Inc., and the Arkansas 4-H Foundation, Inc. (Foundations) that meet the criteria set forth for component units under GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. These Foundations provide financial support for the objectives, purposes and programs of the university. Although the university does not control the timing, purpose or amount received by these Foundations; the resources (and income thereon) they hold and invest are dedicated to benefit the University. Because these resources held by the Foundations can only be used by, or for the benefit of, the University, they are considered component units and are discretely presented in the financial report. Additional information about component units is provided at Notes to the Financial Statements (Note) No. 1 "Summary of Significant Accounting Policies", under the "Component Units" heading.

Note 17, "Other Entities" refers to the University of Arkansas Foundation, Inc., (the Foundation). The University is the beneficiary of only 52.1% of the net assets of the Foundation; therefore the Foundation does not meet the requirements of a component unit.

Statement of Net Position

The Statement of Net Position provides a fiscal snapshot of the University as of the end of the fiscal year. All assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position are reported. Assets and liabilities are presented in the order of their relative liquidity, and are identified as current or noncurrent. Current assets are those assets that can be realized in the coming year, and current liabilities are expected to be paid within the next year. Noncurrent assets and liabilities are not expected to be realized as cash or paid in the subsequent year. Deferred outflows of resources and deferred inflows of resources are recognized through the consumption or acquisition of resources by the University that is applicable to a future reporting period. Assets, deferred outflows of resources, liabilities and deferred inflows of resources are generally measured using current values. One exception is capital assets, which are stated at historical cost less accumulated depreciation.

Net Position is presented in four categories:

Net invested in capital assets – capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets.

Restricted nonexpendable - net position subject to externally-imposed stipulations that it be maintained permanently by the University.

Restricted expendable - net position whose use by the University is subject to externally-imposed stipulations that can be fulfilled by actions of the University pursuant to those stipulations or that expire by the passage of time.

Unrestricted - net position that is not subject to externally-imposed stipulations, but can be used at the discretion of the governing board to meet current expenses for any purpose if not limited by contractual agreements with outside parties.

The following summarizes the University's assets, deferred outflows of resources, liabilities, and net position as of June 30, 2014, and 2013:

Assets	2014	2013
Current Assets	\$ 344,180,136	\$ 328,820,080
Capital Assets, Net of Depreciation	1,135,648,519	1,072,790,009
Other Noncurrent Assets	169,442,303	204,654,754
Total Assets	\$ 1,649,270,958	\$ 1,606,264,843
Deferred Outflows of Resources		
Deferred Amount on Refunding	\$ 5,605,180	\$ 6,200,312
Liabilities		
Current Liabilities	\$ 107,410,960	\$ 119,998,896
Noncurrent Liabilities	727,154,380	721,965,755
Total Liabilities	\$ 834,565,340	\$ 841,964,651
Net Position		
Net Invested in Capital Assets	\$ 506,674,608	\$ 477,365,165
Restricted – Nonexpendable	23,606,266	23,742,448
Restricted – Expendable	76,777,319	77,565,067
Unrestricted	213,252,605	191,827,824
Total Net Position	\$ 820,310,798	\$ 770,500,504

Overall, the University's total assets increased \$43 million. A review of the statement of net position reveals that there were several offsetting variances, but the increase was largely attributable to increases in cash and cash equivalents of \$23.5 million, and capital assets of \$62.9 million offset by reductions in deposits with trustees of \$47.9 million.

The University continues to strengthen its liquidity position, with 62% of current assets comprised of cash and cash equivalents. For several years, the University's year-over-year cash balances have shown a steady increase. The rate and risk environment in the financial markets has not provided a significant premium over cash returns and cannot match the liquidity and low-risk benefits of cash and cash equivalents. Thus, the University has been intentional in maintaining a strong cash position to provide needed flexibility in deploying resources during a multi-year period of unprecedented growth in enrollment coupled with an aggressive reinvestment in campus facilities.

Deposits with bond trustees represent unspent bond proceeds and bond reserve funds. The decrease in 2014 is the net result of new bond proceeds totaling \$29.8 million being added in 2014 and continued spending of 2013 and earlier bond proceeds for ongoing construction projects.

The increase in Capital Assets, net of depreciation, is primarily a reflection of the University acquiring capital assets at a rate greater than these assets are disposed of or depreciated. The section "Significant Changes in Capital Assets and Long Term Debt Activity" below and Note 13 "Property, Plant and Equipment" provide additional information about capital assets.

Deferred outflows of resources consist of deferred amounts on refinancing of debt. Adoption of Statement 65 required that these deferred amounts be reported as a deferred outflow of resources. Prior to adoption of Statement 65, these amounts were included with the long-term debt liability.

Overall, liabilities decreased \$7.4 million. The overall decrease was largely attributable to a \$12.2 million reduction in accounts payable and accrued liabilities offset by a \$2.5 million net increase in bonds, notes, capital leases and installment contracts (long-term debt). Accounts payable and accrued liabilities decreased in 2014 because several construction projects that were underway at the end of 2013 were completed in 2014, resulting in fewer trade account payables and contract retainage accruals.

The University continued its investment in facilities renewal and replacement along with the addition of new facilities and improvements in 2014. Using bonds to finance a portion of the costs also continued as evidenced by the issuance of \$24.7 million Various Facilities Revenue Bonds, Series 2014A and \$5 million Various Facilities Revenue Bonds, Series 2014B. The two issues totaled \$29.7 million and also realized a net unamortized premium of \$2.3 million, which when netted against scheduled retirements of \$29.5 million resulted in a net increase in long term debt of \$2.5 million. Additional information about University debt, and the projects financed with debt proceeds, is provided in the "Significant Changes in Capital Assets and Long Term Debt Activity" discussion below and at Note 9 "Compensated Absences, Bonds, Notes, Capital Leases Payable, and Installment Contracts".

The increase in assets of \$43 million, combined with the decrease in deferred outflows of resources of \$.6 million and a decrease in liabilities of \$7.4 million resulted in an increase of \$49.8 million in net position.

The following summarizes the composition of unrestricted net position owned by the units of the University of Arkansas Fund as of June 30, 2014 and 2013:

	2014	2013
Fayetteville Campus	\$ 142,786,608	\$ 127,984,749
Agricultural Experiment Station	42,495,318	43,198,540
Cooperative Extension Service	19,360,536	12,631,932
Arkansas Archeological Survey	542,413	339,026
Criminal Justice Institute	3,133,939	2,974,092
Clinton School of Public Service	1,271,004	1,603,837
AREON	3,662,787	3,095,648
Total Unrestricted Net Position	\$ 213,252,605	\$ 191,827,824

Unrestricted net position for the Fayetteville Campus as of June 30, 2014 and 2013 is allocated as follows:

	2014	2013
Working Capital	\$ 750,000	\$ 750,000
E & G Department Uses	77,900,431	70,001,246
Service Operations	2,126,727	25,423
Auxiliaries	24,187,624	22,423,288
Plant Funds	24,376,617	22,633,140
Quasi-Endowment Funds	13,445,209	12,151,652
Total Fayetteville Campus		
Unrestricted Net Position	\$ 142,786,608	\$ 127,984,749

Although unrestricted net position is not subject to externally-imposed restrictions, the majority of the University's unrestricted net position is subject to internal designations to meet various specific commitments. These commitments include reserves established for capital projects, scholarships, and other academic or research priorities; working capital for self-supporting auxiliary enterprises; reserves for the continued recognition of the OPEB obligation; reserves for student information system technologies and unrestricted quasi endowments.

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position present the University's results of activities for the year. The statement presents the revenues earned by the University, both operating and non-operating, and the expenses incurred by the University, both operating and non-operating, and any other revenues, expenses, gains and losses, and changes in net position. In accordance with GASB standards, significant recurring sources of University revenue such as state appropriations, gifts, investment income and certain grants and contracts are reported as non-operating revenues. As a result, the operating loss of \$295.9 million is of little significance, but

does highlight the University's dependency on non-operating revenues to meet the costs of operations and provide funds for the acquisition of capital assets.

The following summarizes the University's revenues, expenses and changes in net position for the years ended June 30, 2014 and 2013:

	2014	2013
Operating Revenues	\$ 417,955,513	\$ 401,062,085
Operating Expenses	713,833,706	685,449,295
Operating loss	(295,878,193)	(284,387,210)
Net nonoperating revenues	319,832,100	320,237,559
Gain before other revenues and changes in net position	23,953,907	35,850,349
Other revenues and changes in net position	25,856,387	26,707,306
Increase in Net Position	\$ 49,810,294	\$ 62,557,655

Operating revenue increased 4.2% or \$16.9 million in 2014. Net Student tuition and fees increased \$16.5 million, a reflection of continued record enrollment growth and a 3.5% rate increase for the Fayetteville campus. Auxiliary enterprises revenue attributable to Athletics decreased nearly \$5 million, largely due to one less home football game that resulted in lower ticket sales revenue. All other auxiliary enterprises realized a net increase totaling \$2.5 million collectively, demonstrating the impact of enrollment growth. Grants and contracts collectively increased \$2.9 million, primarily as a result of timing of certain awards and other cyclical changes.

Operating expenses increased \$28.3 million or 4.1% over 2013. Compensation and benefits costs grew \$16.8 million, due in part to necessary increases in faculty to support enrollment growth, along with modest increases in salaries for faculty and staff. The University continues to focus on cost containment initiatives to control expenses.

Overall, net nonoperating revenues remained virtually flat. The University saw an increase in state support in 2014, with a \$5.2 million increase in state appropriations and other state funds. Investment income increased \$6.3 million due to market performance and increased cash balances. These increases were offset by reductions in gift revenue of \$2.6 million, state grants (nonexchange) of \$4 million and increased interest on capital asset-related debt of \$4.9 million.

Gifts reported on the Statement of Revenues, Expenses and Changes in Net Position only reflect a portion of the gifts available to the University. Most gifts for the benefit of the University are made to the University of Arkansas Foundation, Inc. whose financial information is presented in summary form at Note 17 "Other Entities".

Other Revenues and Changes in Net Position reflect changes in capital appropriations and capital gifts. Capital appropriations increased \$5.3 million, largely due to an increase in State General Improvement Funds. Capital grants and gifts decreased \$7.4 million due to the award of a BTOP capital grant in 2013.

Statement of Cash Flows

The Statement of Cash Flows provides information about the cash receipts and disbursements of the University for the year. The statement aids in the assessment of the University's ability to meet obligations as they become due, the need for external financing, and the ability to generate future cash flow. It is prepared using the "direct method" as required by GASB principles. The direct method reports all major gross cash inflows and outflows, differentiating these activities into operating activities, noncapital financing, such as state appropriations and nonexchange grants; capital and related financing, including bond proceeds from debt issued to construct or purchase capital assets; and investing activities.

The following summarizes the University's cash flows for the years ended June 30, 2014 and 2013:

	2014	2013
Net cash used by operating activities	\$ (220,243,075)	\$ (218,342,080)
Net cash provided by noncapital financing activities	324,100,302	330,306,533
Net cash provided by operating and noncapital financing activities	103,857,227	111,964,453
Net cash used by capital and related financing activities	(85,709,879)	(69,801,648)
Net cash provided by investing activities	5,378,806	5,663,654
Net increase in cash	\$ 23,526,154	\$ 47,826,459

The University used \$220.2 million of cash for operating activities in 2014 offset by cash provided by noncapital financing activities of \$324.1 million. Similar to the operating loss on the Statement of Revenues, Expenses and Changes in Net Position, net cash provided by operating activities is of little significance to the University. The net cash provided by the combination of operating activities and noncapital financing activities is a much more meaningful number for the University. The positive amount of almost \$103.8 million for 2014 indicates that these activities contributed to cash and liquidity for the year.

Cash used by capital financing activities reflects the University's continued use of bonded debt to finance the acquisition of capital assets. Net cash provided by investing activities illustrates the positioning of the cash component of matured investments to other university accounts.

Significant Changes in Capital Assets and Long-Term Debt Activity

The University continued work on the multi-year Facilities Renewal and Stewardship Plan. This large-scale, long-range plan is intended to upgrade and add facilities in order to expand capacity and modernize the campus. A dedicated facilities fee, phased in over the time period 2009 to 2013, provides a revenue stream that is used to leverage bonded debt in order to fund a portion of this

aggressive plan. The condition of the University's capital assets is an important measure of the University's overall financial health. Providing and maintaining facilities that create an attractive environment in which to learn and live is vital to attracting new students, as well as recruiting excellent faculty and staff. The University maintains a Facility Condition Index (FCI) to assist in assessment of the overall management of capital assets. The index trend is positive, demonstrating the positive effect of additions, renovations and the elimination of deferred maintenance to campus infrastructure and educational and general buildings as the Facilities Renewal and Stewardship Plan is implemented.

The pace of construction in 2014 was down slightly from 2013 with several projects begun in previous years completed; continued progress on ongoing projects; and new projects initiated.

The list of projects begun in previous years that were completed in 2014 is impressive. A total of seven projects, five of which were major projects brought online in time for occupancy for the fall 2013 semester, were completed in 2014. They include:

Vol Walker Hall – whole building renovation of 56,635 gsf plus a 34,320 gsf addition to house the Steven L. Anderson Design Center. Total project cost was \$39 million, funded with bond proceeds of \$25.7 million, Donald W. Reynolds Foundation gift of \$10 million and the remainder with private funds.

Ozark Hall – whole building renovation of 67,208 gsf plus an 18,310 gsf addition to house the Honor's College, Graduate School & International Education and the J. William Fulbright College of Arts and Sciences Geosciences Department. Total project cost was \$27.6 million, funded with bond proceeds of \$18.5 million and the remainder with private funds.

Founders Hall and extension of the Brough Commons dining facility – new space of 78,500 gsf for residence and dining purposes. Total project cost was \$26.6 million, funded with a mix of bond proceeds, dining and housing reserves and other available resources.

Hotz Hall – whole building conversion from administrative space back to its original purpose as a residence hall. Total project cost of \$17.2 million was funded with a mix of bond proceeds and reserves.

Fred W. Smith Football Center – was the final phase of a project to construct an operations center, football practice fields and additional parking. The football center added new space of 82,000 gsf for coaching staff and other administrative space; team meeting rooms and locker room; equipment room, athletic training area and other operations space as well as public space with museum quality displays and lighting. Total project cost was \$42 million, funded with bond proceeds of \$25.2 million, a \$10 million grant from the Donald W. Reynolds Foundation, and private funds.

Housing Administration Building – new space of 20,000 gsf for Housing administrative offices and to serve as a welcome and resource center for parents and students. Total project cost was \$5.9 million, funded with bond proceeds.

John A. White Jr. Engineering Hall – Phase I renovation of 9,200 gsf first floor to renew and replace mechanical, electrical and plumbing systems, as well as upgrades to life safety systems. Phase I also includes full design for whole building renovation and a planned addition. Total project costs for phase I were \$4.4 million, funded by bond proceeds and university reserves.

Utility infrastructure capacity expansions are associated with many of the projects described above. The projects primarily address heating and cooling service extensions as well as a major improvement in core campus domestic water capacity for additional fire protection capability. Additional phases will begin as projects under construction described below move forward.

A total of ten projects begun in previous years continued in 2014. They include:

Champions Hall classroom and laboratory building – new construction of 65,050 gsf for general use classrooms and teaching laboratories to meet the capacity demands of a growing enrollment. The building will house nine 75 person classrooms, twelve 28 seat wet/dry teaching labs, Mathematics Resource and Teaching Center (MRTC) and a small number of faculty offices. Total project cost is estimated at \$26.5 million, funded with a mix of bonds and university reserves. Project completion is expected in summer, 2015.

Jim & Joyce Faulkner Performing Arts Center – whole building conversion of the 40,882 gsf Fieldhouse building to a state-of-the-art venue for exhibiting the musical and theatrical talents of students and faculty. The interior space will be completely renovated to provide a concert hall with seating for approximately 600, while the exterior of the building will be preserved. Total project cost is estimated at \$20 million, funded with a mix of bond proceeds, university reserves and private support. Project completion is expected in summer, 2015.

Nanoscale Science and Engineering Building – phase II continues work on the third floor, with interior fit-out and equipment. Project funded with capital appropriations totaling \$4.3 million received in 2011 and 2014. Project completion is expected in 2015.

Classroom and teaching lab upgrades – a multi-phase, multi-year program to modernize up to 160 classrooms and 35 general teaching labs. The phase II project included infrastructure and life safety upgrades for the Science Building general teaching labs, and classroom renovations at Kimpel Hall. The \$7.6 million Phase II funded by bond proceeds.

Student Athlete Success Center – new construction of a 58,500 gsf building to house tutorial rooms, group study rooms, quiet study areas, computer lab and learning laboratories that will serve 460 student-athletes. A dining hall and full-service kitchen is also an integral part of the building, designed to support the health of student-athletes. An auditorium with seating for at least 250 people will also be included in the facility. Total project cost is estimated at \$23 million, funded with a mix of bond proceeds, athletic reserves and private support. Completion is expected in summer, 2015.

Fowler Family Baseball and Track Indoor Training Facility – new construction of a 53,630 gsf climate-controlled multi-use space for over 150 student-athletes in the baseball, men's track and women's track programs. The space includes a practice in-field, throwing areas, batting areas, and

ancillary team spaces as well as shared strength and conditioning space and training room. Total project cost is estimated at \$9.0 million, funded by a mix of bond proceeds, athletic reserves and private support. Substantial completion was achieved in summer, 2014.

Basketball Performance Center – new construction of a 66,270 gsf facility that provides separate gymnasiums for men’s and women’s teams, along with locker rooms, weight rooms, training rooms and coaches suites and administrative space. The Center also provides public space with museum quality displays and lighting. Total project cost is estimated at \$25 million, funded with a mix of bond proceeds, athletic reserves and private support. Completion is expected in summer, 2015.

LeRoy Pond Utility Plant – an integrated new chilled water production plant and utility distribution infrastructure to support planned growth in the Athletic Valley district of the campus. Current master plans for Athletic Valley indicate proposed housing and dining facility expansions, as well as the new Student Athlete Success Center and the Basketball Performance Center. The project is being executed in two distinct phases. The first phase was the installation of distribution infrastructure. This included chilled water and heating hot water distribution piping, new primary power duct bank and wiring, communications raceway for telecommunications and fiber optic infrastructure, and related water and sewer improvements. Phase I was completed in the spring of 2014 at a cost of \$11.4 million, and was funded by a mix of utility reserves and bond funds.

Utility Combined Heat and Power (CHP) Project – upgrade existing Heating Plant production infrastructure that provides steam and hot water to the campus. The new system replaces old, inefficient and outdated equipment that has reached the end of its useful life. The new system provides capacity for future growth and the opportunity to use electrical power from CHP to provide uninterruptible power for the campus, especially to critical research buildings. Total project cost is estimated at \$21 million, funded with a mix of bonds and university reserves. Project completion is expected in summer, 2015.

The Division of Agriculture continued renovation of an existing laboratory and office facility, along with construction of a new Soil Testing Laboratory. The Eastern Arkansas Soil Testing and Research Laboratory located at the Lon Mann Cotton Research Station in Marianna, Arkansas, is undergoing renovation and a new Soil Testing Laboratory is being constructed. Total project cost is estimated at \$2.3 million with completion expected in summer 2014. The project is funded by Agriculture sales and reserves.

The University also engaged in several new projects in 2014 primarily to address demands resulting from continued enrollment growth. New projects initiated in 2014 and significant capital acquisitions include:

Cato Springs Research Center – the University purchased the BioBased Building in November 2013 and renamed the facility the Cato Springs Research Center. The building provides laboratory, support and office space for the Department of Biomedical Engineering and other Engineering departments for research activities. This facility has been utilized by the University for several years, having been leased space which was assigned to the College of Engineering. Total cost was \$7.8 million funded by bond proceeds.

Agricultural, Food and Life Science – renovation and repurposing of an abandoned two-story creamery into general purpose classrooms, laboratories and office space. Total estimated cost is \$2.8 million funded by bond proceeds with expected completion by June, 2015.

Art and Design District – renovation, improving, equipping and furnishing of previously purchased warehouse and small office building to relocate the Department of Art sculpture labs, foundations studio course programs and research studios. Estimated project cost is \$4.1 million funded by bond proceeds with expected completion in 2015.

Student Housing – renovation and expansion of student Greek housing operated by the University. Estimated project cost is \$6.3 million, funded by \$5 million bond proceeds with the remainder from private support. Completion is expected in 2015.

Athletics Communication Center – a state-of-the-art facility for video productions and broadcast support including three video control rooms, a production studio and broadcast equipment. The estimated project cost is \$7 million, funded by Athletic department reserves with expected completion in 2015.

The Division of Agriculture is constructing a new Seed Plant Facility at the Rice Research and Extension Center Station located at Stuttgart, Arkansas. This facility will replace the current aging facility and will accommodate the future needs of the Rice Research and Extension Center. Estimated project cost is \$1.3 million, funded with state general improvement funds and Agricultural sales and reserves. Estimated completion is June 2017.

In order to provide permanent financing for certain projects already underway and to finance new projects, the University issued \$24,730,000 in Various Facility Revenue Bonds, Series 2014A and \$5,020,000 in Various Facility Revenue Bonds, Series 2014B (Taxable) on June 30, 2014. The bonds were issued to provide funds to finance the purchase of real property, various construction and renovation projects on the University campus.

Conditions and other factors having a significant effect

Financial and political support from state government remains a critical element to the continued financial health of the University. In 2014, the total general revenue distribution from the State increased \$3.2 million to slightly over \$200 million, which marked the first substantial increase in state funding since the 2008 economic recession. Estimates for 2015 indicate another \$1.5 million increase is expected, bringing the estimated total general revenue distribution from the State to \$201.8 million. While these increases in state support are very helpful, the amounts are still well below needs-based formula calculations. Management will continue to institute both internal and external efforts to maximize the state resources available, while seeking ways to minimize the effect of state funding levels not keeping pace with growth.

The University continues to seek ways to manage the cost of attendance so that it remains affordable while achieving revenue support necessary to offer a high quality university experience. Tuition and mandatory fee increases totaling 3.5% were necessary in 2014 in order to maintain the facilities, faculty and other support needed to fulfill our mission. As record growth in enrollment continues, together with state funding levels not able to keep pace with formula calculations, it is expected that the University must continue to look to increases in tuition rates for revenue support as well as grow private giving support, as discussed below.

Enrollment records continue to be broken, with preliminary figures for fall 2014 enrollment of 26,237. This marks the first time the flagship campus has exceeded 26,000 students. The preliminary numbers show an increase of 896 students. Total undergraduate enrollment is up 3.9% to 21,836 students, graduate enrollment increased 2% to 4,022 students, while enrollment at the School of Law decreased 11 students, or 2.8%, to 379 students. Since 2008, university enrollment

has increased 37%, or more than 7,100 students. This growth trend led the *Chronicle of Higher Education* to rank the University as the 7th fastest growing public research university in the country. Not only has the university grown in number of students enrolled, but has also experienced a steady improvement in both academic quality and diversity. With an intentional effort to recruit students who will succeed, it is expected that continued growth through retention will be experienced for the next several years. While it is encouraging to see record enrollment, further increases in undergraduate enrollment must occur to ensure continued increases in the revenue generated by tuition and to ensure continued support from state government.

The University continues to build momentum for its next comprehensive fundraising campaign. Positive news continues with the University fundraising production totals for private gift support exceeding \$100 million for four consecutive years. Production amounts include gifts of cash, gifts-in-kind, planned gifts and new pledges. In 2014, the University recognized \$113.3 million of private gift support, surpassing its goal of \$108 million. This support is critical to ensure success for students and faculty, and is a fundamental component in meeting budgetary needs. Support received from alumni, friends, organizations and faculty and staff of the University enhances all aspects of the student experience, including academic and need-based scholarships; technology enhancements; new and renovated facilities; undergraduate, graduate and faculty research; study abroad opportunities and innovative programs.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

(1). Summary of Significant Accounting Policies

The financial statements for the University of Arkansas, Fayetteville (“the University”) for the fiscal year ended June 30, 2014, have been prepared in accordance with generally accepted accounting principles accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB).

Basis of Presentation and Measurement Focus

For financial reporting purposes, the University is considered a special-purpose government engaged in business-type activities. Accordingly, the financial statements of the University have been prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and become measurable. Expenses are recognized in the period in which they are incurred, if measurable, including depreciation.

Net Position

The University’s net position is classified as follows:

- Net invested in capital assets: Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets.
- Restricted:
 - Nonexpendable – portion subject to externally-imposed stipulations that they be maintained permanently by the University. Such assets include the University’s permanent endowment funds.
 - Expendable – portion whose use by the University is subject to externally-imposed stipulations that can be fulfilled by actions of the University pursuant to those stipulations or that expire by the passage of time. There is no formal policy requiring restricted net position to be used either before or after unrestricted net position that may be used for the same purpose. Responsible officials determine at the time funds are expended to use any unrestricted net position that may be available.
- Unrestricted: – portion that is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management or the Board of Trustees or may otherwise be limited by contractual agreements with outside parties. Substantially all unrestricted net position is designated for academic and research programs and initiatives as well as capital programs.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

Component Units

In May 2002, GASB issued Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, which amends GASB Statement No. 14 to provide additional guidance to determine whether certain organizations for which the primary government is not financially accountable should be reported as component units based on the nature and significance of their relationship with a primary government. Under the statement, which became effective with the fiscal year ending June 30, 2004, the financial activities of qualifying foundations are to be included in the financial statements of the primary government, through discrete presentations. There were three qualifying foundations for the University of Arkansas, Fayetteville: the University of Arkansas Fayetteville Campus Foundation, Inc., the Razorback Foundation, Inc., and the Arkansas 4-H Foundation, Inc.

The University of Arkansas Fayetteville Campus Foundation, Inc. (“the Foundation”) is a charitable organization described in Section 501 (c) (3) of the Internal Revenue Code of 1986, as amended, and was established by the Walton Family Charitable Support Foundation, Inc., for the exclusive benefit of the University of Arkansas, Fayetteville campus. The Foundation was established on March 11, 2003, and exists primarily to support the Honors College, the Graduate School and the University’s library. The Board of Trustees of the Foundation is made up of seven (7) members, including three (3) members who are also employees of the University. Although the University does not control the timing or amount of receipts from the Foundation, the majority of resources or income thereon that the Foundation holds and invests are restricted to the activities of the University by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the University, the Foundation is considered a component unit of the University and is discretely presented in the University’s financial statements.

The Foundation distributed \$14,840,502 and \$15,863,204 to the University during the fiscal years ended June 30, 2014, and June 30, 2013, respectively, for both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from the administrative office at 700 Research Center Boulevard, Fayetteville, AR 72701.

The Razorback Foundation, Inc. (“the Razorback Foundation”) was incorporated on October 17, 1980. It is a non-for-profit organization whose sole purpose is to support intercollegiate athletics at the University. Although the University does not control the timing or amount of receipts from the Razorback Foundation, the majority of resources, or income thereon that the Razorback Foundation holds and invests are restricted to the activities of the University by the donors. Because these restricted resources held by the Razorback Foundation can only be used by, or for the benefit of, the University, the Razorback Foundation is considered a component unit of the University and is discretely presented in the University’s financial statements.

The Razorback Foundation distributed \$14,922,435 to the University, and provided equipment, facilities, improvements and supplies in the amount of \$422,032 during the fiscal year ended June 30, 2014. During the fiscal year ended June 30, 2013, the Razorback Foundation distributed \$28,655,372 to the University, and provided equipment, facilities, improvements and supplies in the amount of \$386,786. Complete financial statements for the Razorback Foundation can be obtained from the administrative office at 1295 S. Razorback Road, Fayetteville, AR 72701.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

The Arkansas 4-H Foundation, Inc. (“the 4-H Foundation”) was incorporated under the laws of the State of Arkansas in 1951. The purposes and objectives of the 4-H Foundation are exclusively educational. The 4-H Foundation was formed to encourage and support such educational purposes, as in the judgment of the 4-H Foundation, will best meet the needs and advance the interests of 4-H youth programs throughout the State of Arkansas. The 4-H Foundation is organized into approximately 116 distinct funds that are used to account for various educational or administrative activities.

The majority of the distributions made by the 4-H Foundation directly to the University during the fiscal years ended June 30, 2014 and June 30, 2013 were for reimbursement to the University for expenses incurred on their behalf. Other distributions made by 4-H Foundation directly to the University during the fiscal years ended June 30, 2014 and June 30, 2013 included transfers of program balances of \$7,971 and \$149,550 respectively. Distributions made by the 4-H Foundation directly to the University for program support equaled \$76,106 for the fiscal year ended June 30, 2014, and \$3,489 for the fiscal year ended June 30, 2013. Complete financial statements for the 4-H Foundation can be obtained from the administrative office at 2301 S. University Avenue, P.O. Box 391, Little Rock, AR 72203.

New Accounting Pronouncements

The GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which became effective with the fiscal year ending June 30, 2014. The Statement provides guidance to (1) properly classify certain assets and liabilities as deferred outflows or deferred inflows of resources or (2) recognize certain items that were previously reported as assets and liabilities as outflows of resources (expenses or expenditures) or inflows of resources (revenues). In accordance with Statement 65, the University reported the cumulative effect of debt refundings, totaling \$5,605,180, as Deferred Outflows of Resources on the Statement of Net Position. Transactions for scholarship funding and awards used for a future term totaling \$107,392 were identified as Deferred Inflows of Resources (funding) and Deferred Outflows of Resources (awards). Because the Deferred Inflows and Deferred Outflows were for the same type of transaction (scholarships) and were the same amount, they were netted against one another for reporting purposes and are not reported on the face of the Statement of Net Position. Additionally, gift revenue reported on the Statement of Revenues, Expenses and Changes in Net Position recognized the change in Deferred Inflows of Resources for scholarship funding for scholarships awarded for a future period.

The GASB also issued three other statements which become effective with the fiscal year ending June 30, 2014: Statement No. 66, *Technical Corrections—2012—an amendment of GASB Statements No. 10 and No. 62*, which resolves conflicting guidance contained in previously issued GASB pronouncements; Statement No. 67, *Financial Reporting for Pension Plans—an amendment of GASB Statement No. 25*, that addresses financial reporting by state and local governmental pension plans; and Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*, that specifies reporting requirements for governments that either extend or receive nonexchange financial guarantees. Management has determined that Statements 66 and 67 have no effect on current reporting or disclosures. Management has also determined that the University was not a party to any nonexchange financial guarantees and the requirements of Statement 70 are not applicable.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

The GASB issued the following three statements which become effective with the fiscal year ending June 30, 2015: Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*, Statement No. 71, *Pension Transition For Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement No. 68*, and Statement No. 69, *Government Combinations and Disposals of Government Operations*. Management has not determined the effects of the implementation of these statements on the University's financial statements.

Cash and Cash Equivalents

The University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds held in the custody of the Treasurer of the State of Arkansas and other state agencies are considered cash equivalents.

Inventories

Inventories are valued at cost with costs being determined using several generally accepted inventory valuation methods depending on the best practices of the University department to which the inventory belongs.

The following summarized the cost of inventories with the method of valuation:

Inventories	Valuation Method	June 30, 2014	June 30, 2013
Athletics Inventory	Retail	\$ 583,758	\$ 560,837
Bookstore	Retail	4,074,331	3,366,236

University Press	LCM	526,924	562,244
Total Inventories		\$ 6,441,580	\$ 5,808,597

¹The Research Services inventory was liquidated in the fiscal year ended June 30, 2014.

Accounts Receivable

Accounts receivable are stated at estimated net realizable values; that is, the gross amount of the receivable is reduced by allowances for estimated uncollectible accounts. Accounts receivable represent charges due the University from various student fees, room and board, student fines, and other charges. Accounts receivable also consist of unreimbursed expenses relating to research contracts with federal, state, and private agencies. Accounts receivable totaling \$1,493,341 and \$522,914 were written off during the fiscal years ended June 30, 2014, and June 30, 2013, respectively.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

Accounts receivable at June 30, 2014, totaled \$39,652,531. The allowance for doubtful accounts was computed to be \$5,845,730, resulting in net accounts receivable totaling \$33,806,801. Accounts receivable at June 30, 2013, totaled \$45,190,743. The allowance for doubtful accounts was computed to be \$6,136,054, resulting in net accounts receivable totaling \$39,054,689.

A summary of accounts receivable balances at June 30, 2014, are as follows:

	Gross	Allowance	Net

Totals	\$ 45,190,743	\$ (6,136,054)	\$ 39,054,689

Annual Appropriated Budgets

Annual appropriated budgets are adopted for the state general fund. The annual period commences on July 1 of each year following the adjournment of the regular sessions of the General Assembly, and ends on June 30 the year after. An appropriation is construed to be available for the one year period following the legislative session in which it was approved. All appropriations lapse at the end of the year unless otherwise provided.

Capital Assets

Capital assets consisting of land, buildings, furniture, fixtures, equipment, improvements, infrastructure, construction in progress, and intangible assets are stated at cost or fair market value at date of gift.

Buildings, improvements, and infrastructure additions are capitalized when the cost is \$50,000 or more. Renovations to buildings, infrastructure and land improvements are also capitalized when they significantly increase the value or extend the useful life of the structure and the cost exceeds \$50,000.

In accordance with the University's capitalization policy, equipment includes all furniture, fixtures and equipment with a unit cost of \$5,000 or more and an estimated useful life of one year or more.

Intangible assets are capitalized when the cost is \$500,000 or more for purchased software, \$1,000,000 or more for internally developed software, or \$250,000 or more for easements, land use rights, trademarks and copyrights, and patents.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

Library holdings are generally defined as collections of books and reference materials, and are valued using average prices for library acquisitions. A library book is a literary composition bound into a separate volume and identifiable as a separate copyrighted unit. Library reference materials are information sources other than books which include journals, periodicals, microforms, audio/visual media, computer-based information, manuscripts, maps, documents, and similar items.

Livestock is under the control of the Department of Animal Sciences and is maintained primarily for research purposes with any other benefits derived from the operations considered as incidental to the primary mission of the Department. The inventory value placed on the animals is determined by department heads utilizing current market prices and breeding and research intangibles.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 15 to 30 years for buildings, 15 to 20 years for infrastructure and land improvements, 3 to 10 years for equipment and 10 years for library holdings. Amortization of intangible assets, except for those determined to have indefinite useful lives, is computed using the straight-line method over the estimated useful lives of the assets, generally 5 years for purchased software; 10 years for internally developed software; 15 years for easements, land use rights, trademarks, and copyrights; and 20 years for patents.

Capitalization of Interest

The University capitalizes interest involving qualifying assets, if material. The amount of interest cost to be capitalized is interest cost on borrowings netted against any interest earned on temporary investments of the proceeds of those borrowings from the date of borrowing until the specified qualifying assets acquired with those borrowings are ready for their intended use. The total amount of interest cost incurred and the net amount thereof that has been capitalized was \$29,790,749 and \$4,663,932, respectively, for the fiscal year ended June 30, 2014.

Classification of Revenues

The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

- Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, net of scholarship discounts and allowances, and (3) most federal, state and local grants and contracts.
- Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, such as state appropriations and investment income.

Scholarship Discounts and Allowances

Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants and nongovernmental programs are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship discount and allowance.

(2). Reporting Entity

The University of Arkansas, Fayetteville ("the University") was established at Fayetteville in 1871 under the provisions of the Morrill Act as both a state university and the land-grant college of Arkansas. The University of Arkansas, Fayetteville includes the Agricultural Experiment Station, the Cooperative Extension Service, the Arkansas Archeological Survey, the Criminal Justice Institute, the Clinton School of Public Service and the Arkansas Research Education Optical Network, as well as the academic units. The academic units in Fayetteville include ten colleges, schools and divisions: the Dale Bumpers College of Agricultural, Food, and Life Sciences, the Fay Jones School of Architecture, the J. William Fulbright College of Arts and Sciences, the Sam M. Walton College of Business, the College of Education and Health Professions, the College of Engineering, the School of Law, the Honors College, the Graduate School, and the Global Campus. The University is one of eleven campuses of the University of Arkansas System. The governing body is the Board of Trustees which is comprised of ten members.

GASB No. 14 addresses the issue of the financial reporting entity. According to GASB No. 14, the financial reporting entity consists of (a) the primary government; (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Under the provisions of this statement, the University is a component unit of the State of Arkansas (primary government). GASB No. 14 defines a component unit as a legally separate organization for which the elected officials of the primary government are financially accountable. Although this statement is written from the perspective of the primary government, its requirements apply to the separately issued financial statements of a component unit, and therefore, the component unit should apply the provisions of GASB No. 14 as if it was a primary government.

(3). Compensated Absences

In June 2005, GASB issued Statement No. 47, *Accounting for Termination Benefits*, which became effective with the fiscal year ending June 30, 2006. The Statement established guidance for accounting and reporting of the costs and liabilities associated with termination benefits, such as those associated with early retirement incentives. The University has not extended a large-scale or age-related early retirement offering during the fiscal year ended June 30, 2014. The University has, from time to time, negotiated early retirement agreements with faculty which may include the provision of healthcare or other benefits for future periods. The number of early retirement agreements is small and the obligation for future benefits is considered immaterial. Arkansas Code Annotated §21-4-501 authorized the compensation for accumulated unused sick leave for certain

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

employees upon retirement. The University has accrued a liability for these amounts in *Compensated Absences Payable*.

Employees accrue and accumulate annual and sick leave in accordance with policies established by the Board of Trustees. Full time, non-classified, University employees accrue annual leave at the rate of fifteen hours per month, classified employees at a variable rate (from 8 to 15 hours per month) dependent upon number of years of employment in state government. Under the University's policy, an employee may carry accrued leave forward from one calendar year to another, up to a maximum of 240 hours (30 working days). Employees who terminate their employment are entitled to payment for all accumulated annual leave, up to the maximum allowed.

Classified employees who meet the conditions to be considered retirees at the time of termination of employment are entitled to a partial payment of accumulated, unused sick leave in accordance with the provisions of Arkansas Code Annotated §21-4-501.

The University recognizes a liability for compensated absences. The liability is based on the value of unused employee vacation and compensatory time as of year-end, including the associated benefits: contributions to Retirement, Social Security, Medicare, Workers' Compensation, and Unemployment Insurance. The liability also includes amounts paid to eligible classified employees for unused sick leave. A classified employee who has accumulated at least fifty (50) days, but less than sixty (60) days of sick leave upon retirement shall receive an amount equal to fifty percent (50%) of the number of accrued sick leave days (rounded to the nearest day) times fifty percent (50%) of the employee's daily salary. A classified employee who has accumulated at least sixty (60) days, but less than seventy (70) days of sick leave upon retirement shall receive an amount equal to sixty percent (60%) of the number of accrued sick leave days (rounded to the nearest day) times 60 percent (60%) of the employee's daily salary. A classified employee who has accumulated at least seventy (70) days, but less than eighty (80) days of sick leave upon retirement shall receive an amount equal to seventy percent (70%) of the number of accrued sick leave days (rounded to the nearest day) times seventy percent (70%) of the employee's daily salary. A classified employee that has accumulated at least eighty (80) or more days of sick leave upon retirement shall receive an amount equal to eighty percent (80%) of the number of accrued sick leave days (rounded to the nearest day) times eighty percent (80%) of the employee's daily salary. In no event shall an employee receive a sick leave incentive amount that exceeds \$7,500.

The University recognizes the estimated amount of the liability that will be incurred within the next year as a current liability and the balance as noncurrent.

(4). *Cash, Cash Equivalents, and Investments*

Cash and cash equivalents – The University uses commercial banks for its cash deposits. Board of Trustees policy requires that all cash deposits be either insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by securities held at a third party financial institution (preferably the Federal Reserve Bank) in the University's name. Cash deposits are carried at cost. Cash balances in excess of current requirements are pooled and invested in highly liquid, short-term investments with the funds available on a daily basis.

Total Investments	<u>\$ 235,024,689</u>

The Mutual Treasury Funds of \$84,852,998 includes \$84,845,832 reported as deposits with bond trustees on the Statement of Net Position. The above schedule does not include nonnegotiable certificates of deposit of \$59,131 which are considered deposits for GASB Statement No. 40, *Deposit and Investment Risk Disclosures—an amendment of GASB Statement No. 3*.

Effective June 30, 2005, the University is required under GASB Statement No. 40 to provide investment risk disclosures for all invested funds. Disclosures related to the External Investment Pool are shown separately. No disclosures were made for Other Investments. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University does not have a formal investment policy addressing interest rate risk. The University of Arkansas' investments subject to GASB Statement No. 40 interest rate risk disclosure are summarized below:

Concentration of Credit Risk

The University places no limit on the amount that may be invested with any one issuer. There were no investments with any one issuer that represented 5% or more of the total funds invested on June 30, 2014.

External Investment Pool-University of Arkansas System

Effective June 30, 1997, the University of Arkansas adopted Governmental Accounting Standards Board Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Pools*. GASB No. 31 requires that investments be carried at fair value and all changes in fair value be reported in revenue as a component of investment income. In 1997, the University of Arkansas and the University of Arkansas Foundation established an external investment pool. This arrangement commingles (pools) the moneys of more than one legally separate entity and invests, on the participants' behalf, in an investment portfolio. During 1998, the Walton Arts Foundation joined the pool and during 2003, the Fayetteville Campus Foundation joined the pool. During 2007, the University of Arkansas Community College at Hope Foundation joined the pool. The Razorback Foundation, Inc. joined the pool during 2012.

The governmental external investment pool is exempt from registration with the Securities and Exchange Commission. The University of Arkansas Board of Trustees and the University of Arkansas Foundation Board of Trustees are the sponsors of this investment pool and are responsible for operation and oversight for the pool. All participation in this investment pool is voluntary.

In January 2010, the University of Arkansas Investment Committee approved an agreement which delegated authority to the UA Foundation to manage University funds held in the Pool. The agreement included delegation of all responsibility for all investment guidelines and performance objectives for accounts within the Pool. The agreement also delegated to the UA Foundation authority for further delegation of portfolio implementation decisions to one or more investment managers. In January 2010, the UA Foundation entered into such an agreement with Cambridge Associates, LLC.

The following tables contain information on the risk disclosure of the Pool, which includes the Total Return Pool and the Intermediate Pool. The University of Arkansas, Fayetteville owns 8.79% of the Pool's net assets.

Available for Expenditure	\$ 36,175,861	\$ 30,181,485

Note: The amounts shown as available for expenditure and the funds treated as endowments are reported as expendable net position on the Statement of Net Position.

Arkansas Code Annotated §28-69-804 states “Subject to the intent of a donor expressed in the gift instrument, an institution may appropriate for expenditure or accumulate so much of an endowment fund as the institution determines is prudent for the uses, benefits, purposes, and duration for which the endowment fund is established. Unless stated otherwise in the gift instrument, the assets in an endowment fund are donor-restricted assets until appropriated for expenditure by the institution.”

The University uses a total return policy for investing endowed funds. The University’s spending policy is to expend 4.4% of the balance of the endowment averaged over the previous twelve quarters. For FY2014, the total takedown percentage of 5.322% includes .6% for administrative costs plus other external fees.

(5). Notes Receivable

Notes receivable consist of resources made available for financial loans to students of the University and of financing agreements between the University and certain organizations for the purpose of facilities construction.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

The resources for loans to students include federal funds, funds from other external sources, and University funds. New student loans totaling \$2,179,921 and \$2,373,813 were issued under the Student Loan Programs for the years ended June 30, 2014, and June 30, 2013, respectively. Of total campus-based loans processed, the majority were from Perkins funds provided by the federal government. The federal student loan default rate based on the U.S. Department of Education Cohort default rate was 11.99% for the year ended June 30, 2014, and 12.37% for the year ended June 30, 2013. Notes receivable totaling \$11,030 and \$20,344 were written off during the fiscal year ended June 30, 2014, and June 30, 2013, respectively.

(9). Compensated Absences, Bonds, Notes, Capital Leases Payable, and Installment Contracts

Debt service payments on existing bonds amounted to \$49,507,909 for the fiscal year ended June 30, 2014. The amount of \$7,938,489 was expended for principal and interest on notes payable, installment contracts and capital leases for the same period.

On September 13, 2012, the University issued \$60,540,000 in Various Facility Revenue Bonds, Series 2012B. The bonds were issued to provide funds to finance various construction and renovation projects on the University campus. Projects include renovation and construction of and additions to Vol Walker; construction of a new University Housing Administration Building, Founders Hall, and the Jean Tyson Child Development Study Center; a major renovation of Hotz Hall; purchase of the Uptown Campus facilities and other real property; and renovation and improvements to various housing and academic buildings as well as various other campus improvements and infrastructure.

On May 16, 2013, the University issued \$54,450,000 in Various Facility Revenue Bonds, Series 2013A. The bonds were issued to provide funds to finance various construction projects on the University campus. Projects include construction of Champion's Hall classroom and laboratory building, the Leroy Pond Utility Plant, the Jim & Joyce Faulkner Performing Arts Center and the Utility Combined Heat and Power Project.

On May 16, 2013, the University issued \$30,355,000 in Athletic Facility Revenue Bonds, Series 2013. The bonds were issued to provide funds to finance construction of various athletic facilities. Projects include the construction of the Athletic Academic and Dining Facility, the Baseball and Track Indoor Training Facility, and the Basketball Practice Facility.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

On June 30, 2014, the University issued \$24,730,000 in Various Facility Revenue Bonds, Series 2014A and \$5,020,000 in Various Facility Revenue Bonds, Series 2014B (Taxable). The bonds were issued to provide funds to finance the purchase of real property, various construction and renovation projects on the University campus. Projects included in the Series 2014A bond issue include the purchase of the Cato Springs Research Center, the renovation and upgrading of the central heating plant, renovating the Field House and converting it into the Jim and Joyce Faulkner Performing Arts Center, the renovation and repurposing underutilized space in the Agricultural, Food and Life Science Building into general purpose classrooms, and the renovation, improving, equipping and furnishing of previously purchased buildings to be used as an Art and Design District. The Series 2014B (Taxable) bonds were issued to renovate and expand student housing operated by the University.

On April 17, 2012, the University issued \$56,965,000 in Various Facility Revenue Refunding Bonds, Series 2012A. The bonds, with interest rates of 1.0% to 5.0% were issued to refund \$44,555,000 of outstanding bonds dated December 1, 2002 with an interest rate of 4.75% to 5.50%, and \$17,080,000 of outstanding bonds dated October 1, 2004 with interest rates of 3.25% to 4.75%. Net bond proceeds and premiums of \$65,717,794 were deposited into the advance refunding fund to retire the bonds. The combined refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$4,082,794. This difference, reported in the accompanying financial statements as Deferred Outflows of Resources, will be amortized through the fiscal year 2033 using the straight-line method. The University completed the refunding to reduce its total debt service payments over the next twenty-one years by \$9,331,777 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$7,016,631. The escrow balance as of June 30, 2014 was \$15,293,371. The bonds dated December 1, 2002 were refunded on December 1, 2012. The bonds dated October 1, 2004 will continue to have regularly scheduled principal and interest payments made from the escrow account until the bond call date of November 1, 2014, at which time the remaining balance will be refunded.

On March 1, 2005, the University issued \$21,020,000 in Various Facility Revenue Bonds, Series 2005A, and \$60,000,000 in Various Facility Revenue Refunding Bonds, Series 2005B. Series 2005A bonds were issued to provide funds to finance the construction of the Willard Walker Graduate School of Business building, the Center for Academic Excellence building, and the Chemistry building. Series 2005B bonds were issued with an average coupon rate of 4.408% in order to advance refund \$44,195,000 of Series 2002 Various Facility Revenue Bonds and \$12,135,000 of Series 2001 Various Facility Revenue Bonds. The refunded bonds had an average interest rate of 5.472%. Proceeds in the amount of \$62,255,099, plus an additional \$779,632, were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments of the refunded 2002 and 2001 Series bonds. Regularly scheduled interest and principal payments on the 2002 Series and 2001 Series issues were made on June 1, 2005, and continued through December 1, 2012, for Series 2002 and through December 1, 2011, for Series 2001, from the escrow fund. All outstanding refunded Series 2002 bonds were redeemed on December 1, 2012, at a price equal to 100% of the principal amount plus interest accrued thereon. All outstanding refunded Series 2001 bonds were redeemed on December 1, 2011, at a price equal to 100% of the principal amount plus interest accrued thereon. As a result, those portions of the 2002 Series and 2001 Series bonds are considered defeased. The liability for those bonds has been

removed from the Statement of Net Position. The University advance refunded portions of the 2002 and 2001 Series bonds to reduce its total debt service payments over the next 18 years by \$4,116,788 and to obtain economic gain (difference between the present value of the debt service payments on the old and new debt) of \$2,263,717. The escrow account has been closed as of June 30, 2013.

Remaining balances of defeased bond issues as of June 30, 2014:

Title	Principal Balance at June 30, 2014
Various Facilities Revenue Bonds, Series 2004A	\$ 14,995,000

On April 16, 2012, the University signed an agreement to enter into a lease purchase arrangement with AG-PRO Companies. The purpose of the agreement is to provide the University with the financing to purchase a tractor. The lease purchase agreement commenced with up-front payment made upon receiving the equipment in July, 2012. The total of the lease agreement is \$14,627 and bears no interest. The agreement has a final maturity date of July 5, 2014.

(11). Employee Benefits

Retirement Benefits

The University offers employees the option of participating in either the University of Arkansas Retirement Plan (UARP) which includes Teachers Insurance Annuity Association—College Retirement Equities Fund (TIAA-CREF) and Fidelity Investments or the Arkansas Public Employees Retirement System (APERS). Effective July 1, 2011, new employees of the University are no longer eligible to participate in the Arkansas Teacher Retirement System (ATRS). Existing ATRS participants are allowed to continue ATRS participation. APERS and ATRS are both defined benefit plans.

The UARP is a defined contribution plan. The plan is a 403(b) program as defined by the Internal Revenue Service Code of 1986, as amended, and is administered by the President of the University or his delegate. Employees who reach their tax-deferred 403(b) maximums can then participate in a 457(b) plan. Contributions to Fidelity Investments shall be applied either to individual annuities issued under a Metropolitan Life Guaranteed Account and/or one or more mutual fund custodian accounts managed by Fidelity Investments. Contributions to TIAA-CREF can be allocated among their various annuity accounts. Arkansas law authorizes participation in the plan.

Participants in the University's plan can choose to be contributory or non-contributory. The University automatically contributes 5% of an employee's regular salary to TIAA-CREF and/or Fidelity Investments retirement account, allocated between the two companies according to the employee's choice. For any contributions an employee makes in excess of 5% regular salary, the University makes an equal contribution, up to a maximum University contribution of 10% of regular salary. Employee contributions in excess of 10% are allowed by the plans in accordance with Internal Revenue Service regulations but the University does not match these additional contributions. All benefits attributable to plan contributions made by both the University and the participant are immediately vested in the participant for all faculty members and non-classified employees and all classified employees whose initial employment occurred prior to January 1, 1985, and who made any plan contributions prior to that date. For all other classified employees, vesting of benefits attributable to plan contributions made by the University shall occur on the

earlier of completion of three years of service, or attainment of age 65, or the participant's having made plan contributions of at least five percent of regular salary for six consecutive months. The University's and participants' TIAA-CREF contributions for the year ending June 30, 2014, were \$15,779,040 and \$16,224,893, respectively. The University's and participants' Fidelity Investments contributions for the year ending June 30, 2014, were \$6,734,948 and \$7,050,302, respectively. The University's and participants' TIAA-CREF contributions for the year ending June 30, 2013, were \$15,501,108 and \$15,830,669, respectively. The University's and participants' Fidelity Investments contributions for the year ending June 30, 2013, were \$6,181,711 and \$6,338,988, respectively.

APERS is a cost-sharing multiple employer defined benefit plan administered by the State of Arkansas. The University contributes 14.88% of applicable wages to the plan. Under certain conditions covered employees may voluntarily contribute 5% of his/her salary. The University's and participants' contributions for the year ending June 30, 2014, were \$889,798 and \$225,126, respectively. The University's and participants' contribution for the year ending June 30, 2013, were \$636,330 and \$144,164, respectively. The University's and participants' contribution for the year ending June 30, 2012, were \$420,627 and \$83,389, respectively.

ATRS is a cost-sharing multiple employer defined benefit pension plan. The University contributes 14% of all covered employees' salaries. Under certain conditions covered employees may voluntarily contribute 6% of his/her salary. The University's and participants' contributions for the year ending June 30, 2014, were \$249,997 and \$67,728, respectively. The University's and participants' contributions for the year ending June 30, 2013, were \$289,557 and \$81,700, respectively. The University's and participants' contributions for the year ending June 30, 2012, were \$303,552 and \$82,177, respectively.

The University's and participants' contributions to all other pension plans for the year ended June 30, 2014, were \$389,536 and \$286,785, respectively. The University's and participants' contributions to all other pension plans for the year ended June 30, 2013, were \$412,107 and \$311,116, respectively.

Self-Insurance Plans

The University of Arkansas System sponsors self-funded health and dental benefit plans for University employees and their eligible dependents. The Fayetteville, Medical Sciences, Little Rock, Pine Bluff, Monticello, and Batesville campuses, state-wide operating units of the Arkansas Archeological Survey and Division of Agriculture, System Administration, Criminal Justice Institute, the Clinton School of Public Service, the Arkansas School for Mathematics, Sciences and the Arts, and the University of Arkansas Foundation, Inc., participate in the health insurance program which is administered by the System Administration. Operations of the plans are recorded in the separate University of Arkansas consolidated financial report.

As of January 1, 2014, post age 65, Medicare eligible retiree no longer participate in the University of Arkansas' self-funded health and dental benefit plan. Those individuals are now covered by the UnitedHealthcare Medicare Advantage PPO plan.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

For the year ending June 30, 2014, a total of 4,504 active employees, former employees, and retirees were participants in the health plan. For the year ending June 30, 2013, the total of active employees, former employees, and retirees participating in the health plan was 5,030. The University pays 73.519% for the Point of Service Plan and 81.178% for the Classic Plan for Fayetteville, the Criminal Justice Institute and the Arkansas Archeological Survey. The University pays 74.295% for the Point of Service Plan and 79.905% for the Classic Plan for the Division of Agriculture. The University pays 75% of the health plan for federal employees.

Life Insurance Plan

The University of Arkansas System's life insurance carrier is Unum Life Insurance Company of America. The University's life insurance is a fully-insured arrangement with the premiums being sent directly to the life insurance carrier.

Expenditures for all employee benefits are included as expenditures within the appropriate functional area.

12): Other Postemployment Benefits

Other Postemployment Benefits (OPEB)

The University offers postemployment health (including prescription drugs) and dental benefits along with life insurance (\$10,000 available coverage) to eligible retirees. Health and dental benefits are provided in the University's self-funded plan sponsored by the Board of Trustees of the University of Arkansas System for current and retired employees of the Fayetteville (UAF), Little Rock (UALR), Medical Sciences (UAMS), Monticello (UAM), Pine Bluff (UAPB), Phillips (PCCUA) and Batesville (UACCB) campuses, the Cooperative Extension Service of the Division of Agriculture (CES), the Arkansas School for Mathematics, Sciences and the Arts (ASMSA), and the University of Arkansas System Administration (SYSTEM). The plan is considered a single-employer, defined benefit plan. The System Administration manages and administers the plan. Although benefits are also provided under the University's plan for the University of Arkansas Foundation, Inc. and the University of Arkansas Winthrop Rockefeller Institute, no postemployment benefit is accrued by the University for these private entities. Financial activities of the plan are reported in the University of Arkansas consolidated financial report.

In June 2004, GASB issued Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, which became effective for the fiscal year ending June 30, 2008. This statement requires governmental entities to recognize and match other postretirement benefit costs with related services received and also to provide information regarding the actuarially calculated liability and funding level of the benefits associated with past services. The calculation reflects expected future medical costs. It includes an accrual for all active employees valuing the benefits they are anticipated to receive in retirement based on the likelihood that they will stay employed until eligible for postretirement benefits. As a result of the implementation of this statement, the University accrued \$12,314,432 in retiree healthcare liability as of June 30, 2014.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

For those campuses in the University's self-funded plan, retirees qualify for postretirement benefits as follows:

- **Participation:** Employees who retire with a combination of age and years of service of at least 70 with at least 10 years of coverage under the plan are eligible to participate. Retirees may cover spouses and eligible dependent children. Surviving spouses can continue coverage after retiree's death. Retirees can continue coverage past Medicare eligibility age (age 65 or disabled) with the University plan paying secondary to Medicare.
- **Benefit Provided:** Retirees participate in the plan at the same premium rate as an active employee.
- **Required Contribution Ratio:** Retirees pay 100% of premium. Employer costs are funded on a pay-as-you-go basis.

Summary of Key Actuarial Methods and Assumptions

Actuarial Assumptions	
University Self-Funded Plan	
Valuation date	July 1, 2013
Valuation year	Census data was collected as of November 1, 2012
Actuarial cost method	Projected unit credit
Amortization method	30 years open, level % of payroll
Asset valuation method	N/A
Discount rate	4.50%
Projected payroll growth rate	4.00%
Medical inflation rate	Immediate rate of 7.5%, with a 0.25% decrease each year starting in year 3 to an ultimate rate of 4.75%

General Overview of the Valuation Methodology

The process of determining the liability for retiree medical benefits is based on many assumptions about future events. Future increases in health care costs are affected by many factors, including: medical inflation; change in utilization patterns; technological advances; cost shifting; cost leveraging; and changes to government medical programs, such as Medicare.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Calculations are based on the types of benefits provided under the terms of each plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point.

Changes in Actuarial Assumptions and Methods

Effective January 1, 2013, UMR, a subsidiary of United Healthcare, replaced QualChoice as the University's medical plan administrator. The effect of this change on network discounts was

**UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014**

estimated based on the United Healthcare book-of-business discount information contained in the Aon Hewitt Discount Analysis Database compared to the specific claims and discount data reported by QualChoice. In the aggregate, this change is estimated to reduce health care costs by 11.4%. Also, the healthcare trend rate assumption was changed to better reflect anticipated future experience. This change increased the Actuarial Accrued Liability by \$2,059,046 as of July 1, 2013.

Medical Coverage – Retirees not Eligible for Medicare

Claim experience for the period February 1, 2012 through January 31, 2014 was used to develop the claims cost for non-Medicare-eligible retirees. The paid claims data was converted to an incurred basis using a completion factor approach. This experience includes 987 life years of exposure and was deemed to be 70% credible. The experience was combined with the active claims experience adjusted for demographic differences to produce the per capita claims costs used in the valuation. Adjustment factors were then applied to develop expected claims by age to be used in the valuation. Expected retiree premiums were developed to represent the expected cost sharing level anticipated by the University. Retiree premiums were also age-adjusted for use in the valuation.

Medical Coverage – Retirees Eligible for Medicare

Effective January 1, 2014, the plan for Medicare eligible retirees was changed to a fully insured Medicare Advantage program. Retirees pay 100% of the fully insured premium directly to United Healthcare. As a result, no liabilities for Medicare eligible retiree medical benefits are included in this valuation.

Dental Coverage

Dental claims coverage for the period February 1, 2013 through January 31, 2014 was used to develop per capita claims cost for dental coverage. The claims experience includes over 35,000 life years of exposure and was deemed to be fully credible. Based on this analysis, it was concluded that the retiree contributions are sufficient to fully cover the expected dental claims costs as intended. As such, the cost for dental coverage is excluded from this valuation.

(13). Property, Plant and Equipment

In November 2003, GASB issued Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*, which became effective with the fiscal year ending June 30, 2006. The Statement established guidance for accounting and reporting for the impairment of capital assets and for insurance recoveries. For the purposes of this Statement, asset impairment is a significant, unexpected decline in the service utility of a capital asset. The events or changes in circumstances affecting a capital asset that may indicate impairment are prominent – that is, conspicuous or known to University management.

During the fiscal year ended June 30, 2014, there have been no prominent or conspicuous events that would indicate impairment of any material capital assets, nor have there been any material insurance recoveries during the fiscal year.

The following schedule presents a summary of property, plant and equipment for the fiscal year 2014:

(16). Walton Arts Center

The University of Arkansas and the City of Fayetteville engaged in a joint endeavor to operate the Walton Arts Center. Funds were pooled from each entity to provide for the construction and operation of the center. To administer this project and its funds, the University and the City of Fayetteville established a nonprofit organization called the University of Arkansas/City of Fayetteville Arts Foundation, Inc., now called the Walton Arts Center Foundation, Inc., which was incorporated on January 19, 1987. There are nine directors, three are appointed by the University,

three by the City of Fayetteville, and three are recommended by the Foundation that must be approved by the mayor and chancellor.

The Walton Arts Center Council, Inc. was formed to construct, operate, manage, and maintain the Arts Center in Fayetteville, Arkansas, in accordance with the Interlocal Cooperation Agreement between the City of Fayetteville and the University of Arkansas. The ownership of the Arts Center facilities, including land, is held equally by the City and the University. The Arts Center Council must submit an annual budget to both the City and the University for approval. The Board of Trustees of The Arts Center Council is comprised of five members appointed by the University, five members appointed by the City, and ten members appointed at large, all of whom serve as volunteers.

On July 16, 2010, the Arts Center Council filed articles of incorporation for NWA Entertainment, LLC ("NWA") for the purpose of acquiring certain assets of the Arkansas Music Pavilion, Inc. and for the purpose of operating, managing and maintaining assets related to the promotion and presentation of the arts in Northwest Arkansas. NWA is a 100% wholly-owned subsidiary of the Council and has a fiscal year end of March 31. The results of the operations of NWA have been included in the combined financial statements of the Walton Arts Center.

The combined audited financial statements of the Walton Arts Center Council, Inc., the Walton Arts Center Foundation, Inc., and NWA Entertainment, LLC as of and for the year ended June 30, 2014, which have been audited by an independent certified public accountant, are presented below in summary form. Complete financial statements for the Walton Arts Center can be obtained from the administrative office at 229 N. School Avenue, Fayetteville, AR 72701.

(18). Short-Term Debt

GASB Statement No. 38 issued June 1, 2001, states that governments should provide details about short-term debt activity during the year, even if no short-term debt is outstanding at year-end. The University had no short-term debt activity during the fiscal year, nor is there any outstanding balance of short-term debt as of June 30, 2014.

(19). Risk Management

The University of Arkansas Risk Management Program provides insurance coverage for all campuses within the University of Arkansas System. The role of the System Office is to analyze and recommend insurance coverage but it is ultimately up to each campus to inform the System Office regarding their specific coverage requirements.

All campuses are currently covered under the property and auto coverage provided through the System Office. The property coverage is insured through FM Global with a \$100,000 deductible at the Fayetteville, Medical Sciences, and Little Rock Campuses. All other campuses have a \$50,000 deductible. It is the responsibility of each campus to confirm all building and content values to be covered. The FM Global policy also contains earthquake and flood insurance coverage. The System Office has also secured domestic and foreign terrorism coverage.

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

Likewise with the auto coverage, each campus is responsible for providing a list of vehicles to be covered under the auto coverage through Cypress Insurance. The auto coverage has a physical damage deductible of \$1,000 and provides coverage against liability losses up to \$1,000,000 per occurrence.

The University of Arkansas does not purchase general liability, errors or omissions, or tort immunity for claims arising from third-party losses on University property as the University of Arkansas has sovereign immunity against such claims. Claims against the University of Arkansas for such losses are heard before the State Claims Commission. In such cases where the University of Arkansas enters into a lease agreement to hold a function at a location not owned by the University of Arkansas, general liability coverage may be purchased for such functions.

The University of Arkansas maintains workers' compensation coverage through the State of Arkansas program. Premiums are paid through payroll and are based on a formula calculated by the Department of Finance and Administration which is provided to the campuses around April 1 of each year to be used for the upcoming fiscal year. The types of benefits and expenditures that are paid include the following: medical expenses, hospital expenses, death benefits, disability, and claimant's attorney fees.

Additionally, the University of Arkansas participates in the State of Arkansas Fidelity Bond Program for claims of employee dishonesty. This program has a limit of \$250,000 recovery per occurrence with a \$2,500 deductible. Premiums are paid annually via a fund transfer from state appropriations to the Department of Finance and Administration.

There have been no reductions in insurance coverage from the prior fiscal year. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

20). Related Party Transactions

There were four significant related party transactions other than those with component units discussed in Note 1.

A member of the Board of Trustees is the Bank Chairman of the privately-held First Security Bancorp based in Searcy, Arkansas. At June 30, 2014, bank balances held at First Security Bank total \$23,954,504 (book balances shown on the Statement of Net Position were \$23,965,688). The University has conducted business with the bank for several years. In addition, Crews and Associates, Inc. (Crews) is a wholly owned, non-bank affiliate of First Security Bancorp and has served as one of the University's bond underwriters for several years. After a Request for Proposal was issued in February, 2011, the Board selected two firms as underwriters, one of which was Crews, who, in FY14, was co-underwriter for two bond issues for the Fayetteville campus in the amount of \$29,750,000.

The Provost and Vice Chancellor for Academic Affairs is a member of the Board of Directors of Simmons First National Corporation (NASDAQ – SFNC) based in Pine Bluff, Arkansas. At June 30, 2014, bank balances held at Simmons First National Bank total \$61,709,956 (book balances

shown on the Statement of Net Position were \$61,709,956). Simmons First National Bank has served as trustee for bond proceeds for several years, and amounts on deposit represent funds held in that capacity, primarily for three bond issues.

The Vice Chancellor and Director of Athletics is a member of the Board of Directors of Arvest Bank Fayetteville, one of 16 autonomous community-oriented banks which comprise Arvest Bank Group, Inc., based in Bentonville, Arkansas. At June 30, 2014, bank balances held at Arvest Bank Group, Inc. banks total \$196,095 (book balances shown on the Statement of Net Position were \$185,929).

The Associate Vice Chancellor for Business Affairs is a member of the Board of Directors of the Educational and Institutional Cooperative Service, Inc., a not-for-profit corporation chartered in the State of New York in 1934. The principle role of the Cooperative is to secure group discounts and favorable terms of sale for member institutions by aggregating buying power through large volume contracts. The University has been a member institution of the E&I Cooperative since 1952. All contracts negotiated by E&I are competitively bid and approved for the university's use by the Office of State Procurement. Purchases totaling \$6,851,347 were made during the fiscal year ended June 30, 2014 utilizing twenty-nine E&I contracts.

(21). Restatement of Prior Year

Statement of Net Position

The Statement of Net Position contained the following restatements for the year ended June 30, 2013 to reflect implementation of GASB Statement No. 65:

Unamortized debt issuance costs totaling \$3,153,503 are no longer recognized as an asset. Other assets, both current and noncurrent, were reduced by \$167,797 and 2,985,706, respectively, and Net invested in capital assets was reduced \$3,153,503 as a result of this change.

Scholarships awarded in the amount of \$224,991 that apply to a future term were reclassified as a deferred outflow of resources. Funding for these scholarships previously recognized as revenue was reclassified as a Deferred inflow of resources. Accordingly, Net position restricted for scholarships and fellowships was reduced \$224,991. Because the deferred outflow and inflow were for the same type of transaction and were the same amount, they were netted and do not appear on the face of the statement.

The deferral on debt defeasance in the amount of \$6,200,312, previously reported as a component of Bonds, notes, capital leases and installment contracts payable, was reclassified as a deferred outflow of resources. As a result, Bonds, notes, capital leases and installment contracts payable, both current and noncurrent, increased by \$595,131 and \$5,605,181 respectively.

Statement of Revenues, Expenses and Changes in Net Position

The Statement of Revenues, Expenses and Changes in Net Position contained the following restatements for the year ended June 30, 2013 to reflect implementation of GASB Statement No. 65:

UNIVERSITY OF ARKANSAS, FAYETTEVILLE
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

Gift revenue increased \$46,254, reflecting the change in deferred inflows of resources for scholarships awarded for a future period.

Interest on capital asset-related debt decreased \$133,781 to reflect the fiscal year 2013 bond costs amortization.

Other nonoperating expenses increased \$1,260,225 to recognize bond issuance costs for fiscal year 2013 new issues.

Net position – beginning of year was reduced a total of \$2,298,304 to reflect the fiscal year 2012 deferred inflow of \$271,245 for scholarship funding and \$2,027,059 for unamortized bond issuance costs.

The restatements discussed above had no effect on the Statement of Cash Flows.

(22). Pollution Remediation

In November 2006, GASB issued Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, which became effective with the fiscal year ending June 30, 2009. The Statement establishes standards for the accounting and financial reporting of pollution (including contamination) remediation obligations. On July 21, 2009, the University was awarded a grant in the amount of \$1,900,000 from the United States Department of Energy to conduct a study to determine what obligation, if any, the University may have for potential remediation of the Southwest Experimental Fast Oxide Reactor site (SEFOR); including estimated remediation cost and development of a plan for necessary remediation. As of June 30, 2013, the study has been completed and the grant closed. The University remains under no obligation to begin pollution remediation of the site.

(23). Contingencies

The University has been named as defendant in several lawsuits. It is the opinion of management and its legal counsel that the ultimate outcome of litigation will not have a material effect on the future operations or financial position of the University.

(24). Subsequent Event

On August 14, 2014, the governing documents establishing and defining the joint endeavor between the City of Fayetteville and the University of Arkansas to operate the Walton Arts Center were revised to ensure clarity and flexibility to allow the Walton Arts Center to meet the arts and entertainment needs of all residents of Northwest Arkansas with a multi-venue system, while at the same time confirming support of the original partnership. Revisions were made to the respective Articles of Incorporation of the Walton Arts Center Foundation, Inc. and the Walton Arts Center Council, Inc. to clarify the purpose of each entity to encompass multiple venues in the Northwest Arkansas region; to allow the Walton Family Foundation to appoint

nine additional directors to the Board of Directors of the Arts Center Council while ensuring that the City and University maintain their proportionate number of Directors on the Board; to return the City of Fayetteville's initial payment of \$1.5 million dollars to the Foundation back to the City for the City's use in the construction of a parking facility adjacent to the Walton Arts Center or as otherwise determined by the Fayetteville City Council; and with consent by the University to expend the institution's initial payment of \$1.5 million dollars to the Foundation to help defray the construction costs of the proposed enlargement and enhancement of the Walton Arts Center located in Fayetteville, Arkansas. Upon return of the funds to the City and the use of University provided funds for construction, the Walton Arts Center Foundation, Inc. will no longer be an agent for the City of Fayetteville or the University of Arkansas. The City and the University will no longer have the right of appointment of Walton Arts Center Foundation, Inc. directors.

An Amended and Restated Interlocal Cooperation Agreement was also executed that permits the Walton Arts Center to conduct business as a separate, free-standing non-profit corporation; that budget and operational oversight rests exclusively with the Walton Arts Center Council and confirms the Walton Arts Center is no longer an agent of the University or the City, nor restricted to the terms of the original agreement; and affirms the Walton Arts Center must comply with the terms of a new lease agreement executed by the University, City of Fayetteville and the Walton Arts Center Council.

The lease agreement extends the term to twenty-five years and recognizes the changed scope of the Walton Arts Center. The lease also provides assurances regarding the on-going quality and type of performances at the Walton Arts Center in Fayetteville.

Since there is no funding, the expected contributions are any retiree premiums actually paid by the University plus expected implicit subsidy payments. The implicit rate subsidy is the difference between the true cost of medical benefits and the cost sharing premiums paid by the retiree.

An explanation of the differences in the annual required contribution is provided in the section, *General Overview of the Valuation Methodology*.

General Overview of the Valuation Methodology

The process of determining the liability for retiree medical benefits is based on many assumptions about future events. Future increases in health care costs are affected by many factors, including: medical inflation; change in utilization patterns; technological advances; cost shifting; cost leveraging; and changes to government medical programs, such as Medicare.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Calculations are based on the types of benefits provided under the terms of each plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point.

Changes in Actuarial Assumptions and Methods

Effective January 1, 2013, UMR, a subsidiary of United Healthcare, replaced QualChoice as the University's medical plan administrator. The effect of this change on network discounts was estimated based on the United Healthcare book-of-business discount information contained in the Aon Hewitt Discount Analysis Database compared to the specific claims and discount data reported by QualChoice. In the aggregate, this change is estimated to reduce health care costs by 11.4%. Also, the healthcare trend rate assumption was changed to better reflect anticipated future experience. This change increased the Actuarial Accrued Liability by \$2,059,046 as of July 1, 2013.

Medical Coverage – Retirees not Eligible for Medicare

Claim experience for the period February 1, 2012 through January 31, 2014 was used to develop the claims cost for non-Medicare-eligible retirees. The paid claims data was converted to an incurred basis using a completion factor approach. This experience includes 987 life years of exposure and was deemed to be 70% credible. The experience was combined with the active claims experience adjusted for demographic differences to produce the per capita claims costs used in the valuation. Adjustment factors were then applied to develop expected

claims by age to be used in the valuation. Expected retiree premiums were developed to represent the expected cost sharing level anticipated by the University. Retiree premiums were also age-adjusted for use in the valuation.

Medical Coverage – Retirees Eligible for Medicare

Effective January 1, 2014, the plan for Medicare eligible retirees was changed to a fully insured Medicare Advantage program. Retirees pay 100% of the fully insured premium directly to United Healthcare. As a result, no liabilities for Medicare eligible retiree medical benefits are included in this valuation.

Dental Coverage

Dental claims coverage for the period February 1, 2013 through January 31, 2014 was used to develop per capita claims cost for dental coverage. The claims experience includes over 35,000 life years of exposure and was deemed to be fully credible. Based on this analysis, it was concluded that the retiree contributions are sufficient to fully cover the expected dental claims costs as intended. As such, the cost for dental coverage is excluded from this valuation.
